Please keep ixabepilone (Ixempra) as a SDV on the spreadsheets.

Please create a column next to the Order Name column called Drug that shows the drug name alone.

Hi Gregg,

Could you please help me clarify which prices to use for the following drugs?

- Azacitidine - The lowest price is for the generic. However, the brand Vidaza is available as under SPDPHS contract for ~\$200/100-mg vial, last purchased 10/20/2017.
- Bleomycin 30 units - which price? (see table)
- Cyclophosphamide - which price? (see table)
- Cytarabine - do we use the SDVs or MDVs or both?
 - 100 mg/5ml SDV (cool green cap; NDC 61703-305-38)
 - 500 mg/25 ml MDV (20 mg/ml; NDC 61703-303-46)
 - 2 g/20 ml SDV (100 mg/ml; green cap; NDC 61703-319-22)
 - 1000 mg/50 ml MDV (20 mg/ml; 67457-452-50) - on backorder from Cardinal
 - 2 g/20 ml SDV (100 mg/ml; NDC 67457-452-20) - on backorder from Cardinal
 - 100 mg/ml SDV (NDC 63323-120-20)
- Dacarbazine - 200 mg vial
 - Is 100 mg vial (\$67.10) available? It is listed on backorder by Cardinal
- Darbepoetin alfa-polysorbate (ARANESP) injection 100 mcg -

Do we buy the brand, generic, or both of these drugs?

- **Azacitidine** - The lowest price is for the generic. However, the brand Vidaza is available as under SPDPHS contract for ~\$200/100-mg vial, last purchased 10/20/2017.
- **Gemcitabine**

Do we use MDVs or SDVs or both?

- **Cytarabine**
- **Docetaxel**
- **Doxorubicin**
- **Methotrexate**
- **Ondansetron**

These drugs had wide price ranges on Cardinal. How should I choose which price to use?

- Bleomycin 30 units - which price?

30 unit	\$20.71
30 unit	\$43.05
30 unit	\$53.42

- Cyclophosphamide - which price?

- **Dacarbazine** - 200 mg vial
 - Is 100 mg vial (\$67.10) available? It is listed on backorder by Cardinal
- Darbepoetin alfa-polysorbate (ARANESP) injection 100 mcg - administered as syringe or vial?
- Docetaxel - do we use MDVs or SDVs or both?
- Doxorubicin - do we use MDV or SDV or both? The order history only shows that we've ordered the SDVs recently
- Doxorubicin liposomal (Doxil) - which price? ([see table](#))
- Gemcitabine - Lowest prices are for generics. However, the brand name Gemzar (200 mg, 1 gm) is available under the PHS340 contract and there is recent purchase history.
- Methotrexate - do we use the SDVs or MDVs or both? Do we use one or the other for IM/IV/IT routes of administration?
 - 25 mg/ml - 2 ml SDV \$0.80
 - 25 mg/ml - 10 ml SDV \$5.20
 - 25 mg/ml - 40 ml SDV \$18.44
 - 25 mg/ml - 2 ml MDV \$2.72
 - 25 mg/ml - 10 ml MDV \$15.76
- Ondansetron - do we use the SDVs or MDVs or both? Both are available.
- Trastuzumab (Herceptin)- the 440 mg vial was discontinued and only the 150 mg vial is available now (\$618.89). Do you know the price for the 440 mg vial? Otherwise I will just use the price for the 150 mg vial.
- Zoledronic acid (Zometa, Reclast) - which price--just for the odd doses of Zometa 3 mg or 3.3 mg? ([See table](#))

***check what's available on Cardinal website for multiple products

Limitations: prices used were those listed on Cardinal on 10/30/2017, 11/5/2017. Did not use new prices in an attempt to reflect prices of past year.

Choose lowest price unless there is >\$10 price difference. For >\$50 price difference, then ask Gregg.
